Information Disclosure Statement

1. The information disclosure statement filed July 13, 2004 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. A copy of the Canadian patent has not been submitted and therefore cannot be considered.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because figure 4 does not include the reference character 113 as described on page 4 of the specification

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. **The objection to the drawings will not be held in abeyance.**

Claim Objections

3. Claim 8 is objected to because of the following informalities:

It is believed that the word "has" in line 2 should be changed to - -have- - to agree with the term "lateral portions."

Appropriate correction is required.

Allowable Subject Matter

4. Claims 1-8 are allowable over the prior art of record.

Conclusion

5. This application is in condition for allowance except for the formal matters noted in paragraphs 1-3 above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references show other endless tracks, some of which have portions of the track having different hardnesses.
